EAGLE CREEK WATERSHED MANAGEMENT PLAN: AN INTEGRATED APPROACH TO IMPROVED WATER QUALITY

Eagle Creek Watershed Alliance
A coalition including:

Eagle Creek Watershed Taskforce
Central Indiana Water Resources Partnership
2005

Center for Earth and Environmental Science
Lenore P. Tedesco
Denise Lani Pascual
Lora K. Shrake
Leda R. Casey
Bob E. Hall
Philippe G.F. Vidon
F. Vincent Hernly
Robert C. Barr

Eagle Creek Watershed Taskforce
John Ulmer

Veolia Water Indianapolis, LCC
Dale Pershing

TABLE OF CONTENTS

SECTION I: EXECUTIVE SUMMARY 1
SECTION II: PROJECT INTRODUCTION 3
Designating the Study Area 3
Building Partnerships 3
Missions 4
The Eagle Creek Watershed Task Force 4
The Eagle Creek Watershed Alliance 4
History of Eagle Creek Watershed Management Efforts 5
1995 and 1996 5
1997 5
1997 – 2002 6
2002 – 2003 6
2004 – 2005 6
A History of Eagle Creek Watershed Research Efforts 6
SECTION III: PHYSICAL SETTING OF EAGLE CREEK WATERSHED 9
Geological and Climatological Description of Central Indiana and Eagle Creek Watershed 9
Indiana's Climate Setting and Climate Change 9
Central Indiana's Geologic and Physiographic Setting 13
Eagle Creek Watershed's Geologic and Physiographic Setting 15
Description of Eagle Creek Watershed and Reservoir 23
Eagle Creek Watershed and Reservoir 23
SECTION IV: LAND-USE AND LAND COVER DESCRIPTION OF EAGLE CREEK WATERSHED 31
Landuse History 31
Demographic History 32
Land-use Data 32
1985 Land-use Data 33
2000 Land-use Data 34
Land-Cover Change Analysis 1985-2000 34
Land-use Change Predictions 2000-2040 34
2002 – 2003 Land-use Data 37
Slope and Elevation 41
Impervious Surface Analysis 43
Recreation Areas 47
Farming Practices 47
Tillage Practices 48
Agricultural Chemicals 50
Tile Drains 58
SECTION V: INVESTIGATION OF WATER QUALITY ISSUES IN EAGLE CREEK WATERSHED 59
Indiana Department of Environmental Management Data 59
Designated Uses 60

Impaired Waterbodies ... 61
Eagle Creek Watershed Task Force (ECWTF) Monitoring Study ... 61
Central Indiana Water Resources Partnership (CIWRP) Studies ... 63

SECTION VI: SUBWATERSHED ASSESSMENT ... 97
Assessment Methodology ... 97
IDEM's 303(d) Impaired Waterbodies List ... 97
Water Quality Data ... 98
Atrazine Application Assessment ... 102
Nutrient, Suspended Sediment, and *E. coli* Loading Assessment ... 103
Biological Assessment ... 105
Land-use Perturbation Assessment ... 105
Watershed Visual Assessment ... 106
Adequate Woody Riparian Zone Assessment (ArcView GIS) ... 109
Impervious Surface Assessment ... 110
Location of Point Sources Assessment (NPDES) ... 111
Unsewered Communities Assessment ... 111
Headwater Stream Assessment ... 112
Results of Assessment ... 113
SECTION VII: DEVELOPMENT OF PROBLEM STATEMENTS AND THREAT IDENTIFICATION ... 118
Concerns and Problem Statements ... 118
Concerns ... 118
Problem Statements ... 119

SECTION VIII: CRITICAL AREAS IDENTIFICATION AND PRIORITIZATION 123
Critical Areas Identification 123
Criteria 1 and Criteria 2: Level of Degradation and Level of Vulnerability 123
Feasibility Evaluation 132
Priorities 132
Locating Sites for Remediation 134
Subwatershed Prioritization 134
SECTION IX: WATERSHED MANAGEMENT GOALS 136
SECTION X: WATERSHED MANAGEMENT PLAN IMPLEMENTATION 149
Water Quality Action Register 149
Education and Outreach Action Register 150
SECTION XI: MONITORING INDICATORS 154
Measuring Water Quality Improvements (Goals 1 – 4) 154
Administrative Indicators of Success 154
Ground Truth Indicators of Success 154
Goal 1: Reduce E. coli loads in Eagle Creek Watershed to meet water quality standards. 155
Goal 2: Reduce Atrazine loads in Eagle Creek Watershed 158
Goal 3: Reduce Total Suspended Sediment loads in Eagle Creek Watershed to meet water quality standards. 160
Goal 4: Reduce nutrient loads in Eagle Creek Watershed to meet water quality standards. 163
Measuring Education and Outreach Achievements 165
Goal 5: Increase education and outreach in Eagle Creek Watershed. 165
SECTION XII: ADAPTING AND EVALUATING THE PLAN: ESTABLISHING LONG-TERM SUSTAINABILITY 167
SECTION XIII: REFERENCES CITED 168
APPENDIX A: HISTORY OF EAGLE CREEK WATERSHED TASK FORCE 174
APPENDIX B: EAGLE CREEK WATERSHED ALLIANCE 176
APPENDIX C: WINDSHIELD SURVEY 177
APPENDIX D: BENCHMARK ANALYSIS 178
APPENDIX E: ANNUAL LOAD REDUCTION WORKSHEET 181

LIST OF FIGURES

Figure II-1: Eagle Creek Watershed in relation to the Upper White River Watershed 4
Figure III-1: (A) Average annual temperature in degrees Fahrenheit (ºF). (B) Average annual precipitation in inches (1931-1980). Modified from Clark, 1980. 9
Figure III-2: Average Monthly Precipitation in Indiana. Demand is defined as Evapotranspiration. Newman, 1997. 10
Figure III-3: Average Precipitation Runoff in Indiana. Clark, 1980. 10
Figure III-4: Indiana's Hydrologic Cycle. Clark, 1980 11
Figure III-5: Climate Change Data (A) Global Temperature Changes (EPA, 1998), (B) Climate Change Trends for Central Indiana (Newman, 1997). 12

Figure III-6 Bedrock Geology Map for Indiana. Clark, 1980 13
Figure III-7: Extent and Retreat of Glacial Ice in Indiana. A and B Depict the Maximum Extent of Two Previous Glaciations. The Glacial Ice Completely Retreated from Indiana Between these two Glaciations and the Wisconsinan Glaciations Depicted in image C, D, & E. Image C depicts the Maximum Extent of the Last Glaciation. Images D-F Depict the Retreat of Glacial Ice and Generalized Deposits (Wayne, 1966). 14
Figure III-8: Indiana's Natural Regions 17
Figure III-9: Average slope in Indiana. Waldrip and Roberts, 1972 18
Figure III-10: Drainage Characteristics of Indiana Soils. Clark, 1980 18
Figure III-11: Erosion Potential of Indiana Soils. Clark, 1980. 19
Figure III-12: Eagle Creek Watershed - Bedrock Geology 20
Figure III-13: Eagle Creek Watershed – Surficial Deposits 21
Figure III-14: Eagle Creek Watershed – Soil Associations 22
Figure III-15: Upper White River Watershed 25
Figure III-16: Indianapolis Drinking Water Reservoirs and Their Watersheds 26
Figure III-17: Eagle Creek Watershed – Subwatersheds, Political Boundaries, and location of USGS Gage # 03353200 on Eagle Creek. 27
Figure III-18: Eagle Creek Monthly Mean Streamflow (Zionsville, IN; USGS Gage 03353200; 1957-2002; Figure III-17) 28
Figure III-19: Eagle Creek Reservoir overlay of Eagle Creek and valley (1941), showing the location of the 56th St. Causeway opening and the original location of streambed. Black arrow shows location of land bridge opening. Yellow arrow shows pre-flood Eagle Creek streambed. 29
Figure IV-1: Indiana Wetland Losses (A) Historic Wetlands in Indiana and (B) 1986 Wetlands in Indiana (Robb, 2002). 31
Figure IV-2: Eagle Creek Subwatershed Areas by Land Cover Type (1985 & 2000) 35
Figure IV-3: LUCI Model Prediction of Urbanization in Eagle Creek Watershed (2000 – 2040) 36
Figure IV-4: Eagle Creek Watershed 2002-2003 Land Cover 40
Figure IV-5: Eagle Creek Watershed – Slope Delineation 42
Figure IV-6: Diagram showing the effect of increasing urbanization on run-off (©IUPUI Visual and Interactive Spaces Lab/CEES 2005). A – Natural land cover of forest and herbaceous plants. B – Low density urban land cover. C – High density urban land cover. ⇧ = evapotranspiration; ⇩ = infiltration; and ⇦ = run-off. 44
Figure IV-7: Eagle Creek Watershed – Impervious Surfaces 46
Figure IV-8: Tillage Practices by County (Percent) (Indiana Division of Soil Conservation, 2003 and 2004) 49
Figure V-1: Eagle Creek Watershed Sampling Stations 64
Figure V-2: Seasonal concentration of nitrate near mouth of White River (reproduced from Fenelon, 1998) 72
Figure V-3: Sources of nitrogen to White River Basin (reproduced from Fenelon, 1998) ... 72
Figure V-4: Nitrate concentrations in soils related to soil drainage (reproduced from Fenelon, 1998) 73
Figure V-5: Phosphorous and ammonia concentrations in urban areas (reproduced from Fenelon, 1998) 73

Figure V-6: 2003 single family permits issued per township. Yellow borders denote location of 3,000+ home development in Fishback Creek (Eagle Creek Reservoir) subwatershed..... 76
Figure V-7: Visual Assessment – Stream Buffer and Streambank Erosion 78
Figure V-8: Visual Assessment – Livestock Access, Observed Confined Feeding, NPDES Confined Animal Feeding Operations (CAFOs) 81
Figure V-9: Visual Assessment - Trash 83
Figure V-10: Visual Assessment – Location of Tile/Pipes Observed in Watershed 85
Figure V-11: NPDES Point Sources in Eagle Creek Watershed 88
Figure V-12: Confined Animal Feeding Operations in Eagle Creek Watershed..... 90
Figure V-13: Unsewered Homes in Eagle Creek Watershed..... 93
Figure V-14: Hierarchical stream classification developed by Horton (1945) as modified by Strahler (1952, 1964). 95
Figure VIII-1: Determination of Critical Areas Evaluation Tool (Flow Chart) 125

LIST OF TABLES

Table III-1: Eagle Creek Subwatersheds and the Associated Drainage Area 28
Table III-2: Morphological Data for Eagle Creek Reservoir 30
Table IV-1: Eagle Creek Watershed Demographic History 33
Table IV-2: Eagle Creek Watershed Area Change by Land Cover Type (1985 & 2000) 34
Table IV-3: Predicted Urbanization by Subwatersheds (2000-2040) 36
Table IV-4: Comparison of 1985, 2000, and 2002-2003 Land Cover Assessment 37
Table IV-5: Eagle Creek Subwatersheds 2002-2003 Land-use Data 38
Table IV-6 Elevation and Percent slope statistics for all sub-watersheds in Eagle Creek Watershed. 41
Table IV-7: Continuum of Land-use/Land Cover Imperviousness 44
Table IV-8: Eagle Creek Subwatersheds – Impervious Surface Analysis 45
Table IV-9: Recreational Areas in Eagle Creek Watershed 47
Table IV-10: Corn and Soybean Acreage and Tillage Practices 48
Table IV-11: Estimated 2002 Fertilizer Application in Eagle Creek Subwatersheds 52
Table IV-12: Estimated 2002 Herbicide Application in Eagle Creek Subwatersheds 53
Table V-1: Eagle Creek Watershed 14 Digit HUC Subwatershed 303(d) Listing (IDEM 2002, 2004). 62
Table V-2: Mean Water Quality Values for ECWTF Data (May 1997 – October 2003) 63
Table V-3: Mean Water Quality Values for CIWRP Data (February 2003 – December 2003) 66
Table V-4: T.W. Moses Drinking Water Intake Atrazine (0.003 mg/L) Levels 67
Table V-5: Subwatershed Normalized IBI Scores 69
Table V-6: Normalized IBI Scores 69
Table V-7: Apportionment of *E. coli* to sources based on DNA Ribotyping 71
Table V-8: Percent of Stream with Adequate Woody Riparian Buffer 74
Table V-9: NPDES Point Sources in Eagle Creek Watershed 87
Table V-10: Confined Animal Feeding Operations in Eagle Creek Watershed 89
Table V-11: List of Unsewered Communities in Eagle Creek Watershed by County 92
Table V-12: Stream Classification and Stream Length 96
Table VI-1: Subwatershed Ranking Based on IDEM 303(d) List 98
Table VI-2: Summary of ECW data sets used in Benchmark Assessment 99
Table VI-3: Tiers for Water Quality Benchmark Assessment 101
Table VI-4: Subwatershed Ranking by Tier Scores 102
Table VI-5: Subwatershed Ranking by Atrazine 103
Table VI-6: Subwatershed Ranking by Load 104
Table VI-7: Subwatershed Rank by *E. coli* Load 104
Table VI-8: Subwatershed Ranking by Bioassessment 105
Table VI-9: Subwatershed Ranking by Land-use Perturbation 106
Table VI-10: Subwatershed Ranking by Degree of Stream Bank Erosion 107
Table VI-11: Subwatershed Ranking by Percent of Stream with Adequate Buffer 107
Table VI-12: Subwatershed Ranking by Livestock Access to Stream 108
Table VI-13: Subwatershed Ranking by Trash in Stream 108
Table VI-14: Subwatershed Ranking by Number of Tile/Pipe Discharges 109
Table VI-15: Subwatershed Ranking by Adequate Woody Riparian Zone 110

Table VI-16: Subwatershed Ranking by Impervious Surface Assessment 110
Table VI-17: Subwatershed Rank by Number of NPDES and CAFO Sources that Discharge into the Stream 111
Table VI-18: Subwatershed Rank by Number of Unsewered Homes 112
Table VI-19: Subwatershed Rank by Headwater Stream Classification 112
Table VI-20: Determination of Subwatershed Rank Score 116
Table VI-21: ECW Subwatershed Rankings. Lowest ranking subwatersheds are shaded. . 117

Table X-1: Action Register 151

ACRONYMS

BMP - Best Management Practices

CAFO - Concentrated Animal Feeding Operation

CEES - Center for Earth and Environmental Science, IUPUI

CIWRP - Central Indiana Water Resources Partnership

CUPE - Center for Urban Policy and the Environment, IUPUI

ECW - Eagle Creek Watershed

ECWA - Eagle Creek Watershed Alliance

ECWTF - Eagle Creek Watershed Task Force

EPA - Environmental Protection Agency

FCA - Fish Consumption Advisory

GIS - Geographic Information Systems

IBI - Index of Biotic Integrity

IDEM - Indiana Department of Environmental Management

IHMIP - Indiana Heartland Model Implementation Project

INCAA - Indiana Community Action Association

IUPUI - Indiana University - Purdue University at Indianapolis

LUCI - Land Use in Central Indiana

MCHD - Marion County Health Department

NAWQA- National Water Quality Assessment

NPDES - National Pollutant Discharge Elimination System

PCB - Polychlorinated Biphenyls

POTW - Publicly Owned Treatment Works

USGS - United States Geological Survey
